

We claim:

1. A vehicular lighting system comprising:
 - a grille; and
 - at least one light fixture integrated with the grille wherein the fixture is unobstructed by the grille.
2. The system of claim 1 wherein the light fixture is a strobe light.
3. The system of claim 1 wherein the light fixture is a halogen light.
4. The system of claim 1 wherein the light fixture is a light emitting diode.
5. The system of claim 1 wherein the grille is substantially plastic.
6. The system of claim 1 wherein the light fixture is entirely supported by the grille.
7. The system of claim 1 wherein a front of the fixture is substantially flush with a front of the grille.
8. A method of retrofitting a vehicle with a vehicle lighting system, said method comprising:
 - removing an existing grille from the vehicle; and
 - installing a second grille having at least one light fixture integrated with the second grille wherein the fixture is unobstructed by the second grille.
9. An emergency vehicle grille comprising:
 - a grille base having at least one unobstructed, preformed light fixture socket for receiving a light fixture.
10. The grille of claim 9 wherein the socket is formed in a three inch by seven inch opening in the grille base.
